

## What Show Should I Pick?

Updated: 10.19.22

With so many shows to choose from, it can be hard to know which best suits your class' interests and needs. To help you make the right decision, we have grouped our shows by topic.

To further help you out, we put recommend grades in parenthesis after each show. The last page of this document also lists our shows in Spanish and shows that have open captions as an option.

Should you have any questions- just ask our friendly staff and we would love to help you pick the right show!

### Constellations

- One World, One Sky: Big Bird's Adventure (Grades PreK-1)
